Ready for a challenge in the tourism market?

While travelling a lot in the last couple of years - on business or private purpose - we always thought something is missing. There must be a way to enrich travel experience regardless of time, destination or interest. That is why we came up with an idea to share all different kinds of experience through a simple way and accessible to everyone.

The idea was born within our environment, we challenged the idea, started to develop a first prototype, launched a funding campaign and registered a new company. Going through the same challenges as every brand new startup, we decided to finally enlarge the team. Now we are looking for people who want to join us on this journey as:

Co-founder/CEO/CTO

What we expect: You will take over the full operational responsibilities of the company. Looking for investors, get the product from a prototype to first useable version, establish a marketing strategy and a business model. Help finding potential customers and be part of the early days of a start up with every task, which this might bring to the table.

What we offer: Being part of a journey, which might result in one of the most innovative Startups in the tourism market. An engaged team, which will support you with financial consulting, strategy consulting, personal network, professional experience and support. We also are willing to offer equity, as we strongly believe people believing in an idea should also get the return on investment for their efforts. As we are in an early stage of the company history, we will not be able to offer a salary package but could discuss about expense packages, symbolic salary etc.

As it is a global idea and a modern technology, we absolutely value remote and part time work as at the end it is our investment, which makes us successful.

Job Description:

- Help building a strong startup with a solid product
- Building a marketing concept, acquire customers and investors
- Define our go to market and be part of our success
- Use every skill you have acquired to promote Glitter and make the idea successful
- Collaborate with the Strategic Founders team in growing a strong, integrated, and sustainable organization.

Skills and Competencies:

- Willing to invest your skills in an idea rather than a salary package
- Clear and effective communicator able to articulate the benefits of our model and vision
- Willingness to create something new in an environment of ambiguity
- Strong understanding of social media and a belief in the power of utilizing it
- Relishes and thrives in an unstructured environment
- Desire to be part of a community
