

Intro

Startup investments are often a high risk and fast evolving businesses – So far, there is no sophisticated assessment based on artificial intelligence of early stage startup investments. Are you ready for the opportunity to build the next FinTech prodigy? We are looking for an Entrepreneur in Residence (EIR), who can develop Europe's largest startup-rating and valuation platform, offering investors and corporate clients a comprehensive and unbiased overview of early stage investments, so that they can make an informed investment decision.

SSUF

The Swiss Startup Factory (SSUF) began in 2014 driven by the ambition to create global companies that disrupt the prevailing norms, products, and business models. Our core business is a three-month program that provides early-stage startups with financing, services, coaching, mentoring, office space, and access to a large entrepreneurial and investor network.

Position Detail
