

*You want a job? Then look elsewhere, because we are looking for...*

## pioneers, explorers and pirates

passionate people with an intuitive unwillingness to accept needless boundaries. Urge to create, maker nature, proud of things built, love for everything growing and living.

That's us, SPOUD. We are pioneers in the field of real-time data streaming with the challenging vision of making data exchange within and between companies a safe and straight-forward delight. To succeed we blend expertise in real-time messaging technologies, machine learning, statistics and computer vision to create a never-before-seen collaborative enterprise data market.

Therefore our team needs pioneers with a pirates heart. Specifically, we are looking for a:

## Senior Software Developer

You will be working in our core development team and help us pushing forward our event-driven platform. As there is plenty of work to do at different fronts, you will have to choose your own role according to your profile and your preferences. The only requirements we ask for is that you have some years experience in development and you are ready to learn new things. The rest we will figure out together!

### Your role...

- You will be a fundamental part of our core development team
- You will work in an interdisciplinary team together with data scientists, designers and business
- You will help to find the right technologies that allow us to push forward faster
- You will participate in IT architecture and API design
- You will write incredibly sexy code
- You see the entrepreneurial vision of SPOUD and align your doings accordingly

### Your profile...

- 3+ relevant years of experience in Software Development and the ability to write clean code
- Familiar with Software Design and Architecture
- Know-how in state-of-the-art development frameworks/tools/methods in your field of expertise
- An awareness of what is meant by "lean start-up" and "design thinking"
- Bonus: Experience with NodeJS, Java, Kafka and Flink (because others will talk about it often..)

### We offer...

- A team of experienced start-up enthusiasts who will help you get ahead, but will also listen to you
- A young, dynamic and flexible working environment
- An inspiring workplace in a coworking space with creative people and other successful startups

If you have found a fair amount of overlaps with your profile and your job expectations, feel free and send us your CV and some informal lines of motivation. We are curious: [jobs@spoud.io](mailto:jobs@spoud.io)
